

## Customer Change Notification

Thomas Scientific is Migrating ThermoGrid™ PCR Plates to NEW Amplifyt™

Thermo Grid™

Amplifyt™  
powered by labForce

Thomas Scientific is proud to launch an expansion of products offered through our own "labForce" brand. As always, you can trust that we took great care in creating the best products to support our customers in their research, while also maintaining the best possible pricing. Thomas Scientific stands behind our new Amplifyt™ products and ensure they will not only meet your research requirements but exceed your expectations.

**Amplifyt™ PCR plates are equivalent in fit and function to the original ThermoGrid™ plates and offers a comprehensive solution for virtually all thermal cyclers:**

#### Skirt Options Include:

- No-skirt
- Semi-skirt
- Full-skirt

#### INCREASED Clarity:

- Ultra-clear wells for easy sample visualization

#### EASY Identification:

- High-contrast, black alphanumeric indexing

#### OPTIMAL Sealing:

- Raised wells prevent evaporation

#### REASONABLE Barcoding:

- Custom barcoding available for orders of 20/cs or more
- Completed in 14 days

## Customer Change Notification

Thomas Scientific is Migrating ThermoGrid™ PCR Plates to NEW Amplifyt™

ThermoGrid™

Amplifyt™  
powered by labForce

### What you can expect during the transition from ThermoGrid™ to Amplifyt™:

- This transition will occur over the next several months. Each part number will transition at a different time – depending on stock.
- Below you will see the old ThermoGrid™ parts and the new Thomas Scientific part number for the equivalent Amplifyt™ product will receive in the future.
- The switch will occur automatically when our stock of any part number is depleted. You will be notified of required changes to your purchase order.
